

WLA Security Control Standard

The World Lottery Association's Security Control Standard ("WLA-SCS") is the only internationally recognized information security standard for the Lottery and gaming industry. The WLA-SCS certification is open only to members or associate members of WLA.

The WLA-SCS certification requires an effective security management system to be put in place in a Lottery organization or suppliers and also compliance with certification requirement of ISO 27001 Standard for Information Security Management Systems (ISMS). In addition to the requirements of ISO 27001, the WLA-SCS requires additional 111 lottery-specific security and integrity controls to be met.

Compliance with the WLA-SCS certification enables a Lottery organization or supplier to manage its information assets effectively and securely.

APLA Members currently certified with the WLA-SCS are:
