POWERBALL™

Magnum launches another New Way to Win - Magnum 4D Powerball™

Kuala Lumpur, January 24, 2016 – Magnum launched today a new in-house designed game - Magnum 4D POWERBALL. This first-of-a-kind game builds upon Magnum's popular 4D game by adding new 2 digit Powerball elements, transforming it into an exciting multi-million ringgit Jackpot game. Magnum 4D Powerball has the highest payout ratio compared to all other Magnum Jackpot games.

Dato' Lawrence Lim (CEO) stated "Back in 1969, we were the first to be awarded the license to operate the 4 Digit game in Malaysia; in 2009 we were the first to launch the 4D Jackpot game which has become very popular with Malaysians. And in 2014, we launched the 4D Jackpot Gold. Today, we are proud to introduce another brand new game to the Malaysian market. The Magnum 4D Powerball – The New Way To Win. This game is designed taking into consideration valuable feedback from our customers; it complements both our 4D classic and 4D Jackpot games by adding greater excitement and providing our customers with more chances to win. Magnum 4D Powerball will definitely give a better gaming experience to all our customers compared to all other games in the market."

There are in total 5 prize categories of which 2 are pari-mutuel Jackpot prizes. The prize structure focuses on rewarding players with dreams of becoming a multi-millionaire overnight. It's so easy to play! A simple bet of your favorite 4Digit number and a pair of 2Digit Powerball numbers is all you need. With a match of any top 3 4D numbers and the 4D Powerball numbers, the player stands a chance to win different categories of Jackpot 1 prize. There is no cap as to how high the Jackpot amount can grow! Another key feature of Magnum 4D Powerball is that all 23 4D numbers are eligible to match a Jackpot prize. This is in comparison to 4D Jackpot, where it matches only the top 13 4D numbers only. In other words, there are 23 ways to match for the Jackpot prize for 4D Powerball, of which a full 20 of them can win Jackpot 2. It's so easy to WIN!

The addition of the 4D Powerball game to Magnum's product portfolio heralds the start of a new era for Magnum as the Magnum 4D Powerball game features will satisfy different players' needs and aspirations. Current players who are already

familiar with the 4D game and the 4D Jackpot games will find the Magnum 4D Powerball game a unique and innovative extension of Magnum's games portfolio.

This new game is a perfect blend for allowing them to play their favourite 4D numbers and also other digit numbers that mean something to their lives. This new game offers an opportunity for instant lifestyle change. But more importantly It also helps the gaming industry to be more competitive viz a viz the illegal market and regain lost market share.
